> Re: MB Docket No. 05-317

## Dear Licensee:

By letter dated March 13, 2008, Telefutura Los Angeles LCC ("Telefutura"), the permittee of KFTR-DT, Ontario, California, requested an extension of its waiver of Section 339(a)(2)(D) of the Communications Act of 1934, as amended, to prohibit satellite subscribers from receiving or conducting a digital signal strength test of KFTR-DT's digital signal. The Commission granted the original digital signal testing waiver based on the fact that Telefutura has been unable to construct its authorized DTV facility due to the need for international coordination,"<sup>2</sup> and has granted two six-month extensions.<sup>3</sup> In its most recent extension request, Telefutura states that it is still awaiting Mexican concurrence to its pending maximization application.<sup>4</sup>

Accordingly, IT IS ORDERED that the request of Telefutura IS GRANTED and the first permissible date for digital testing for KFTR-DT IS EXTENDED six months, from April 30, 2008 to October 31, 2008. If a further extension is needed, a request must be filed by August 15, 2008, with oppositions filed with the Commission and served on the relevant parties by August 25, 2008, and replies no later than September 1, 2008.

Sincerely,

Barbara A. Kreisman Chief, Video Division Media Bureau
